EXECUTIVE SUMMARY

AI-focused, research-inclined, and impact-driven candidate specializing in gamified and inclusive educational technologies, with hands-on experience in web development and coding instruction for children.

EDUCATION

BCA Bachelors of Computer Application WCC Women’s Christian College Degree CGPA: 8.0	2023 - 2026
Higher Secondary Education (Second Year) C.S.I Jessie Mosses Mat. Hr. Sec School HSC (2) marks Percentage: 95%	2022 - 2023
Higher Secondary Education (First Year) C.S.I Jessie Mosses Mat. Hr. Sec School HSC (1) marks Percentage: 89%	2021 - 2022

PROJECTS

AI-Powered Gesture-Based Learning Application for Autistic Children Designed a gesture-based system using MediaPipe and TensorFlow AI models, based on field observations from teaching autistic students during internship at HashHackCode.	Jan 2026
Quadcopter Prototype for Smart India Hackathon Designed and built a quadcopter using Arduino Nano and coreless motors.	Sep 2025
2-day Bootcamp for Neurodiverse Children Our company conducted a 2-day online bootcamp for neurodiverse children, where I served as a coding mentor for autistic learners.	May 2025
Gamified Learning Platform Created a Flappy Bird–style game for learning multiplication and conducted a live playtest with Grade 3 and 4 school students, achieving 90% engagement and positive feedback. (GitHub Game Link)	Apr 2025

WORK EXPERIENCE

Web Designer Gumming4U , Alandur Created a official website for the company and more websites for several Businesses	Feb-May 2026
Web Development Intern HashHackCode, Adyar - Creation of various UI UX interfaces for websites - Mentored Children with Autism Spectrum Disorder	Apr-Jul 2025
Digital Marketing Analyst Freelancer MediaTrix , Remote Worked with Meta ads, Marketing analysis, Content calendar Management and website branding.	Feb-Jun 2025
Graphic Design Intern Film Terrain , Remote Created various graphic designing social media posts	Mar-Jul 2025
Coding Teacher Intern Presidency Girls Higher Secondary School , Egmore - Taught HTML and Java script coding to 50+ students from grade 4 and 5 - Worked in implementing coding practically to students	Aug-Sep 2024
Data Science Intern YBI Foundation, Remote Implemented the basics of python while managing various data files	Oct-Nov 2024

RESEARCH PAPERS

A Conceptual Framework for Gesture-Based Learning Support in Autism Education

[Research Paper Link](#)

SKILLS

Programming Skills	Design Skills	Marketing Skills
• Java • Python • C # • PHP • SQL • Android	• Figma • Canva • Miro	• SEO & SEM • Meta Ads • Social Media Marketing

CERTIFICATION COURSES

	Duration
• Python Programming - Swayam	12 Week Course
• Java Programming -NPTEL	12 Week Course
• Introduction to Graphic Designing -NPTEL	8 Week Course
• Generative AI in Software Development - Coursera	17 Hours Course
• Tools for Data Science -Coursera	17 Hours Course
• Introduction to Microsoft - Coursera	1 Hour Course
• Designing Tools - WCC	17 Days Course
• SQL for Data Science - Great Learning	1 Hour Course

ACTIVITIES

• Secured 2nd place for paper presentation at ICAISI 2026 – International Conference on Artificial Intelligence and Sustainable Innovation. • Represented the college in the Smart India Hackathon SIH (2024 & 2025). • Editorial Board Member for LINQS’24 & LINQS’25, contributing to content curation and publication. • Volunteered with the Rotary Club for one year, assisting in community development programs • Participated in CanHack 2026 conducted by University of Canberra, Australia, an international hackathon on AI and innovation.	• Participated in Game Development Workshop (ZICA) and Android Development with Jetpack Compose workshop. • Attended technical seminars on Unleashing the Power of Data and Generative AI, Data Structures & Azure AI with Python and Quality Engineering & Data Management. • Went on a Educational Visit Program to Department of Computer Science, CHRIST (Deemed to be University), Bangalore – Aug 2025
